CATALOG

A FEW WORDS ABOUT MEMORY LANE CLASSICS

MEMORY LANE was formed as a partnership in 1986 by Harvey Trombley and Larry Busch. "Harv" has been in Whizzers and Classic bikes since 1975, Larry has been in Classic bikes since 1980. In 1985 we began setting up together at swap meets. We had our stuff, his stuff and my stuff. When a customer bought some of each and piled it together, we began to have some real problems knowing who's was who's. So instead of looking like three seperate set-up's at a meet with three seperate inventories to keep up--We got smart & put it "all-together".

We try to keep items in our catalog that we have a good stock of, please remember that the majority of our items are 30 to 50 yrs. old and not being made now. Sometimes we stumble on large quanities of an item and then again maybe just a few--Also, a distributor that we deal with may discontinue an item--Sometimes they fore-warn us and we buy the remainder of their stock.

Everyone is welcome to stop by our display area but IT'S BEST TO CALL FIRST TO BE SURE WE ARE HERE. We have hundreds of used parts--some one of a kind and new old stock items that are limited. These are not listed in the catalog--feel free to inquire about specific parts.

WE BUY, SELL & TRADE.

On the back of this catalog are various Bicycle Publications to choose from and also some reputable dealers we do business with.

We guarantee to take care and precaution to expedite your orders which are shipped United Parcel Service unless specified otherwise. CANADA & PUERTO RICO orders are usually shipped thru the Postal System. It is our concern that you will be one of our many satisfied customers.

NOTE: UNDER NO CIRCUMSTANCES WILL MEMORY LANE CLASSICS BE RESPONSIBLE FOR ANY DAMAGES ARISING FROM OR IN CONNECTION WITH THE INSTALLATION OR USE OF ANY PRODUCT LISTED OR SOLD.

SCHWINN DEALER QUALITY REPORT
NOTICE TO SCHWINN DEALER:
This Schwinn Bicycle and its components have been carefully inspected during manufacture, assembly and packing. This card identifies the Final Packing Inspector of this bicycle. The seat post tag identifies the Final Assembly Inspector, and the two wheel tags identify the Wheel Truers. All of us, as well as other inspectors and production personnel here at Schwinn, have made a sincere effort to eliminate errors which might inconvenience you or your customer.
You can help us in this effort, should you find an error, defect or shortage in this bicycle. In that event, please return this card promptly, using the other side to describe the problem. Also, please attach the seat post tag and wheel tags where they may apply. Your promptness may help us to quickly correct an error and prevent more bicycles from going out in a similar condition.
This card may be used to order warranty replacement parts for new bicycles, also warranty replacement parts for bicycles already in use. Do not use this card to order parts needed for repair of bicycles not covered under warranty.

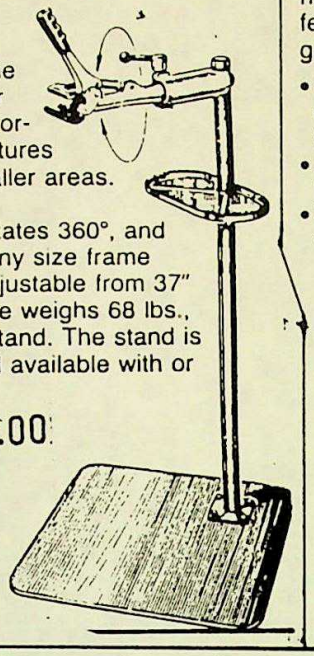
Bicycle Repair Stands

Deluxe Single Arm Repair Stand Model PRS-3



This stand is one-half of the Deluxe Double-Arm Repair Stand (PRS-2), and incorporates most of the same features in a stand suitable for smaller areas.

The vinyl-coated clamp rotates 360°, and is adjustable for virtually any size frame tubing. Clamp height is adjustable from 37" to 47". The solid steel base weighs 68 lbs., making for a very stable stand. The stand is heavily chrome plated and available with or without the base.

$275.00

Shipping weight: 90# with base —

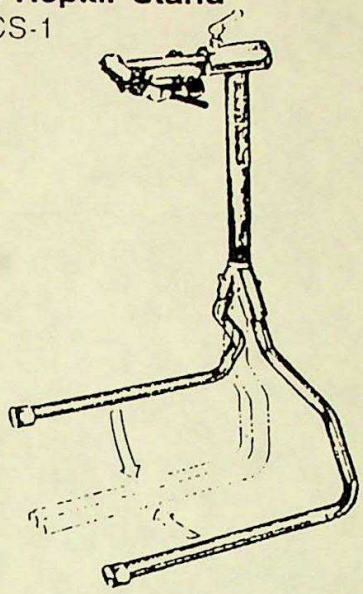
W1362 COMPLETE

Home Mechanic Repair Stand Model PCS-1

Now, for the first time, a stand is available for the home mechanic or biker with features found **only** on genuine Park Repair Stands.

- Quick acting, spring loaded clamp adjusts to any frame tubing size
- Bike can be rotated to any of 6 positions on full 360° rotation
- Clamp jaws and steel base are vinyl coated

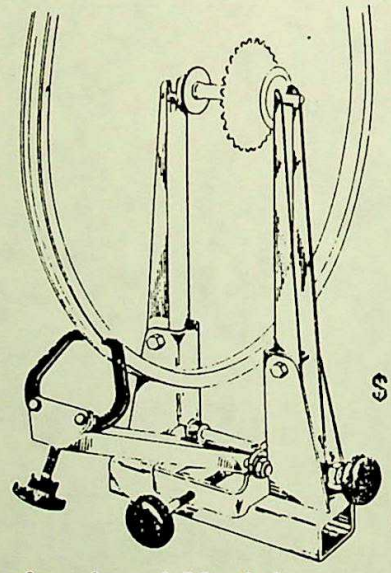
$135.00



Floor Model PRS-9:
Heavy base is made of vinyl coated solid steel square bar. Clamp height is 40".

Shipping Weight: 27#

PARK Wheel Building and Truing Aids



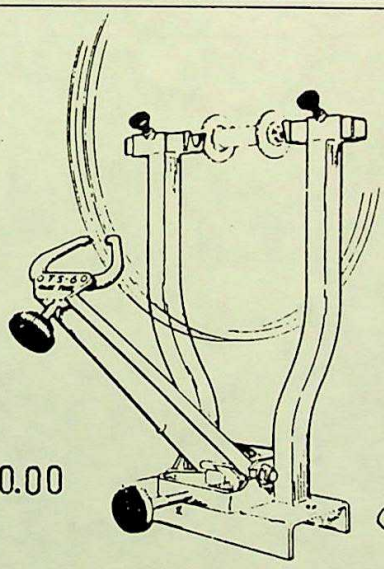
$175.00

W1291

Professional Model Wheel Truing Stand Model TS-2

The New, Improved Park Truing Stand is now, more than ever, the stand to choose for fast, easy wheel truing. Accepts wheels from 16" to 28" with or without tire removed. Axle-holding uprights move simultaneously, always centering wheel hub with calipers, regardless of hub width. Calipers and caliper arm are spring loaded to prevent jamming with a badly out-of-true wheel. Made of heavy, chrome plated steel, with nylon bushings at pivot points. Can be bench mounted or vise held. Truly a professional quality wheel truing stand.

Shipping Weight: 18#



$110.00

W1347

Consumer Wheel Truing Stand Model TS-6

This new, low cost truing stand was designed and built in response to many requests for such a stand. It is recommended for light duty or occasional use, and is especially directed to the home mechanic or for the small repair shop. While it is possible to true wheels as accurately as with our model TS-2 Professional Truing Stand, some additional time is required to manually center the hub in the stand. For heavy duty shop use, we recommend using our Model TS-2 Professional Model Truing Stand. Can be bench mounted or vise held. Attractive painted finish.

Shipping Weight: 9#
